SUBJECT: Studies in Intelligence Project
Report of Activities
21 September - 28 September 1955

1. The first issue of Studies in Intelligence was distributed 21-23 September. Some 850 copies were sent out, 750 inside the Agency and 100 to the IAC. Early returns have been favorable: the typical comment has been "sounds like a good and useful enterprise, anxious to see how future issues shape up." We have received calls so far from a number of DD/I officers and from the Department of State.

2. The second issue (articles on Capabilities by O/NE, and PP Staff) is all but ready for the printer; it needs only an editorial introduction which is in draft. This issue will be classified SECRET and will probably receive the same distribution as number one.

3. Mr. and I have discussed various changes in format and type-faces for subsequent issues. We are limited, of course, by the thin resources of the printer, but we hope to make improvements in design and general appearance. I will work on this with Leo -- whose contribution to the production of issue number one was tremendous.
